| Typical calibers:               | 380ACP,9mmP,40S&W,45ACP etc |                |         |
| <u>Information:</u>             |                             |                |         |

A fast burning, double-base, spherical handgun propellant. This powder is extremely versatile and can be used in many handgun calibers. It offers a wide performance range from target and Cowboy Action applications to full power defense loads. This powder meters well and strikes a good balance between ballistics and cost efficiency.

**Bulk density/VMD values can vary as indicated (%), please verify all volumetric loads on a scale.**
