

Designation:	2230	Abbreviated:	A-2230
Type:	Spherical		
Base:	Double		
Bulk Density(grams/cc) +/-5.6%	0.985	VMD(cc/grams)	1.015
Bulk Density(grains/cc) +/-5.6%	15.201	VMD(cc/grains)	0.066
Application/Category	Rifle		
Burn Rate sub-category:	Fast		
Typical calibers:	204Ruger,222Rem,223Rem,30-30Win,308Win,458Win etc		
<u>Information:</u>			

2230 is a fast burning, double-base, spherical rifle propellant. This versatile powder was designed around the 223 Remington, but can be used in many small and medium caliber cartridges including the 308 Winchester. It also works well in big bore straight wall cartridges such as the 458 Winchester. The excellent flow characteristics and grain size of 2230 make it ideal for progressive loading.

Bulk density/VMD values can vary as indicated (%), please verify all volumetric loads on a scale.
